

## CAB High Visibility Custom Bags, Pouches and Holders

CAB offers a wide variety of durable, custom-made bags, pouches and holders in any size for many applications. High visibility features make them ideal for safe, secure storage of batteries, detectors, meters, gauges, tools, communication devices and other equipment.

Made from a variety of heavy duty materials such as 1000 denier cordura nylon, brattice cloth and nylon reinforced vinyl. Colors may include high visibility orange, black, gray and lime yellow. For added safety and protection, high visibility retroreflective vinyl can be sewn on any bag. See page 19 for the eleven brilliant colors available.

For added utility, CAB offers many custom features. These may include webbing for handles, shoulder straps, belt loops, back straps, and bag reinforcement.

Other features are clear windows for reading gauges, foam padding for protecting contents, snaps for quick attachment, buckles for adjustment and custom lettering for fast and clear identification.

Variety of closures are available including

velcro, side-release buckles,  
zippers and snaps.
