

Application

For conducting dry sand and cement in guniting operations. Also for general material handling applications where a thick cut and abrasion resistant tube is required.

Construction

Tube- Tan natural rubber for maximum cut and abrasion resistant 1/4" thick

Reinforcement- Two layers of synthetic textile cords with static wire

Cover- Black abrasion and weather resistant synthetic rubber

Branding- Unbranded

Temperature Range

-35°C to +82°C (-31°F to +180°F)

Standard Lengths

1.25" to 1.625" - 50ft / 100ft

2" to 3" - 50ft / 100ft
