

# CAB® High Visibility Reflective Streamers

Heavy weight, double-sided reflectors useful in a wide variety of underground applications. Manufactured from microprism retroreflective vinyl with brass grommet. Extremely brilliant with true color reflection. Available in 11 different colors for a complete mine color code identification system. Both sides can have the same color or 2 different colors. One side may also be non-reflective. Flexible and impact resistant with a smooth surface that can be wiped clean. Available with S-hook or special roof plate clip for quick installation, as shown on opposite page. Streamers are 1-3/8" (35mm) wide in standard lengths listed above. Also available with wording such as "MANDOOR", "CAUTION", "SHUT-OFF VALVE", etc. Packaged 50/box. Some minimums apply on custom orders.
