

Hawiflex[®] LF-low friction: Ideal for bulk materials

The significantly reduced coefficient of friction makes Hawiflex[®] low friction especially suitable for fine-grained bulk materials that normally tend to adhere. With Hawiflex[®] LF-low friction a lot less adheres.

Hawiflex[®] benefits:

- No adhesion
- Low coefficient of friction

Applications:

- Conveyor scrapers
- Bin linings
- Transfer points
- Hoppers
